Job Application for Anaesthesia Registrar

Dear Mr./Ms./Dr.

About Me

With **eleven years** experience in anaesthesia and intensive care field ; I am writing to apply for a job opportunity to your hospital(s).

I have started to work as anaesthesia registrar in Egyptian Ministry of health since 2007, taking my training in **Zagazig university hospital** in anesthesia and surgical ICU Fields (*Ob/Gyn - General surgery -neurosurgery - Trauma - Orthopedics - Vascular - ENT - Ophthalmology and surgical , Trauma and postoperative ICU*). After finishing my **master degree**, I have started to work as a specialist In **Altayseer hospital** (Private hospital In Egypt) under **prof. Mohamad Mowafy**.

In **2014**, I worked as a **registrar of anaesthesia In Al-mowasat Hospital** in Jubail - Saudi Arabia. two years later, Moved to Dammam in Saudi arabia (Saud Albabtain Cardiac Center) to work as a **registrar of cardiac anaesthesia**; gained more experience in cardiac anesthesia and Cardiac surgical ICU field.

In between **2014 and 2018**; as an upgrade of my academic certifications; I have finished **European Diploma of anaesthesia and intensive care , Certification of acute medicine (royal Collage of physician)**, and **Level One of EACVI certification**.

Regarding Teaching activity, beside my previous experience as an instructor in (ERC), and the regular lectures presentations related to **hemodynamics and arterial blood gas advanced analysis**; currently I am assigned to teach new trainees about different topics of **mechanical ventilation**.

Why Ireland

The main cause behind for applying for job vacancies to **upgrade my certifications**, finding other modern place for upgrading **my knowledge and expanding my prospective via contact with European medical field**

Why Me?

Beside working as an anaesthesia registrar in **operating room** , I have much experience facing emergency cases ranging form **Emergency department to Intensive care**.

working in **Cardiac field** allowed me to face **maximum complex and emergency medical situations**.

My skills in **ultrasonography and echocardiography** allow me to do better evaluating of the patient's condition in more detailed objective way.

Sincerely,

Mohamad. Radwan
